

1990 annual report – Gypsum Mining Operations MCCs 205-208 and MCC983-990

Northern Cement Pty Ltd

Northern Cement has been mining gypsum from within MCCs 205-208. A stockpile is maintained on site. The truck driver loads the truck himself with a Cat 920 loader. Material has been screened on site since 1989. Accompanying photos were taken by the Machinery Inspector from the Department.
