MLS 155 - ANNUAL REPORT 1999 - 2000

During the reporting period of 1999 - 2000 the balance of Chambigne Garnet's tenements in the Harts Range region of the Northern Territory were under mineral lease application, therefore no exploration activities were carried out.

Through our program of project development, which encompasses site visits, we have taken time to inspect the above mentioned lease on a number of occasions.

We have endeavoured to ensure the integrity of the lease pegs and cleared vegetation as may have grown to obscure them.

Since the granting of this lease, there has been no other field activity (exploration) whatsoever in this particular tenement.

We will inform the Department of Mines and Energy prior to any anticipated field activity in MLS 155.

Yours faithfully

R JOLLY
MANAGING DIRECTOR

CR 2000 - 0083
