MLS 155 - ANNUAL REPORT 2004 - 2005

During the reporting period, the tenement located in the Harts Range region of the Northern Territory, was under application to transfer to Inminerals Pty Ltd, and as such no exploration activities were carried out on this mineral lease.

Within other activities in the region we were able to encompass site visits and arranged time to inspect the above mentioned lease on occasions.

We have endeavoured to ensure the integrity of the lease pegs and cleared vegetation where possible.

Since the granting of this lease, there has been no other field activity (exploration) whatsoever in this particular tenement.

We will inform the Department of Mines and Energy prior to any anticipated field activity in this tenement.

Yours faithfully

R JOLLY
