1. INTRODUCTION
2. MINING
3. EXPENDITURE

1. INTRODUCTION

MLN 1037 was granted in March 1988 for ancillary mining purposes. It abuts the southern boundary of MLN 1049 and allows for the provision of an additional area of water and waste rock storage and the use of extractive minerals as may be required in the mining of the adjoining mineral lease MLN 1049.

2. MINING

No mining activity has been carried out during the year.

3. EXPENDITURE

No expenditure has been recorded on the lease during the year.
