Dear Cristel

**Re: EL 8210**

My apologies for this later and far from perfect report on the above EL.

The licence was first issued to myself on 16 September 1993. It was issued for a period of two (2) years and the required expenditure was \$2,500 for the first period. After doing library research and two vehicle and foot traverses of the area we have decided that this area has no potential for our purposes.

I have been involved in several JVs with Northern Gold who have expressed an interest to have this EL to rationalise their current tenement holdings in the area. It is my intention to deliver, free of charge, this EL to them if the final period is approved.

Expenditure for the past year is as follows:

|                         |            |
|-------------------------|------------|
| 2 days library research | \$ 800.00  |
| 2 days on ground        | \$ 800.00  |
| Vehicle 700 km          | \$ 400.00  |
| Accommodation and meals | \$ 150.00  |
| Administration          | \$ 200.00  |
| Application and fees    | \$ 350.00  |
|                         | <hr/>      |
|                         | \$2,700.00 |
|                         | <hr/>      |

Yours faithfully

**NORM McCLEARY**
