Summary

8 caskets were excavated on the banks of the Frew River. Numbers 29 & 8 contained visible gold.
1. INTRODUCTION

EL 6983 was granted to John May 23rd October 1990 comprising 20 graticular blocks (64 square Kilometres).

2. LOCATION (Figure)

EL 6983 is located 140 Km SE of Tennant Creek on the Frew River, 1:250,000 sheet area. Access is via the Stuart Highway for 90 Km then east for 120 Km along the Epenarra road, before turning south along the Frew River.

3. EXPLORATION PROGRAMME (Figure 2)

Eight costeans were excavated by backhoe along the banks of the Frew River for the length of the exploration licence (12 Km). The costeans were up to 100 metres long and 2m deep (where possible).

Composite samples over 5 metre intervals (of alluvium) were taken and panned in the dish for visible gold. Two costeans showed visible gold namely numbers 2 & 8.

4. EXPENDITURE

- Backhoe Hire (135 hrs @ $63) $ 8500.00
- Diesel
  - 500.00
- Camp Supplies
  - 500.00
- Lighting Plant Hire
  - 450.00
- Sampling time (10 days @ $250)
  - 2500.00
- Prospecting time
  - 2500.00
- Vehicle maintenance
  - 700.00

Total $15,650.00
