

## ALS ASSAY RESULTS

The data presented in **Appendix 5** represents the assay results for Blue Moon North soil sampling program. The odd numbered samples from the batch were sent for analysis.

The files contained in this appendix are exactly as ALS sent them to Giants Reef Mining N.L. Files can be opened using Windows Notepad, or a similar package.

Sample location points are contained within Blue\_Soil.dat and can be opened using Windows Notepad, or a similar package.
