

## **Rio Tinto Exploration Pty. Limited**

ABN 76 000 057 125 / ACN 000 057 125

A member of the Rio Tinto Group

Final Annual Report  
for the Period Ending 21 August 2006,  
EL3406 Keyling, Yambarra Project,  
Northern Territory.

**Exploration Report No. 27885**

Tenement Holder:	Ashton Mining Limited
Date:	October 2006
Author:	S R Bishop
Submitted:	I M Clementson
Distribution:	Department of Primary Industry Fisheries & Mines RTE Perth Information Centre

Limited.

## **SUMMARY OF ACTIVITIES**

This final report describes exploration by Rio Tinto Exploration (RTE) within EL3406 Keyling, Yambarra Project area, Northern Territory, for the period starting 23 September 2002 and ending 21 August 2006. EL3406 is located approximately 200 km south west of Darwin on the Daly River/Port Keats Aboriginal Land Trust. The Yambarra Project area covers portions of the Palaeoproterozoic Pine Creek Orogen, the Mesoproterozoic Victoria-Birrinduddu Basin and the Palaeozoic Bonaparte Basin.

Work completed by RTE within the tenement during the four years starting 22 September 2002 and ending 21 August 2006 is as follows:

- Review of previous exploration.
- Aboriginal consultation meetings and site clearance surveys.
- Two mine management plans.
- Interpretation of existing magnetic and Thematic Mapper data.
- One reconnaissance 40kg gravel sample. Scanning Electron Microprobe Analysis of kimberlite indicator mineral grains from the gravel sample. Interpretation of indicator mineral chemistry.
- Review of published geological and topographic information to identify areas of possible bauxite mineralisation.
- Two phases of interpretation of Thematic Mapper and digital terrain data sets to define potential bauxite target areas.

The gravel sample returned indicator minerals but none of the minerals have kimberlitic geochemistry.

No areas prospective for bauxite were identified within EL3406.

EL3406 was relinquished on 21 August 2006.

All of the field-based exploration completed by RTE was helicopter-assisted and non-surface disturbing. No rehabilitation activities were required.
