

Eromanga Uranium Limited

Proposed Program and Expenditure for 2008

Illogwa Creek Project

EL 25162 – Numery

Airborne EM survey	\$20 000
Field reconnaissance	\$ 5 000
TOTAL	\$25 000

The airborne EM survey is to be flown at 1km line spacing over the entire licence area with the object of locating buried palaeochannels within the Eromanga Basin which may host sedimentary uranium..
