Re: Prospecting Authority (Formerly No. 2081) Sylvester Area
   Period Ending March 31, 1970

Dear Sir,

Application for renewal of Prospecting Authority No. 2081, due to an oversight, was not lodged until 17th December, 1969.

Our representative in the Northern Territory, Cridland and Bauer, have informed us that Prospecting Authority No. 2615 (formerly No. 2081) was advertised in the Northern Territory News early in January. The time for exemptions expired on the 7th of February. To date we have not received notice that this Prospecting Authority has been issued to Continental Oil Company of Australia Limited.

We would appreciate your advising on the progress of this Authority and whether or not the No. is 2615.

During March study of the economics of phosphate production in Queensland continued. This work will have a bearing on evaluation of the deposits in the Northern Territory.

Reconnaissance of the proposed 1970 drilling program in the Northern Territory is scheduled to be conducted in April.

Drilling is planned to commence later in the dry season.

Total expenditure for No. 2081, to date, is $25,506, including all applicable salary allocations and overhead.

Yours sincerely,

Earl O. Abbott
