Dear Alison,

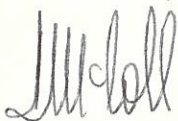

**EXPLORATION LICENCE 25874**  
**RUM JUNGLE URANIUM LIMITED**

The second anniversary of the subject licence occurred on 17 September 2009 and the Annual Report for Year 2 was lodged with the Geoscience Library on 14 October 2009.

The Year 3 proposed work program that was included with the Year 2 Report set a proposed expenditure of \$8,000.00. This figure did not match what Rum Jungle Uranium had proposed in its application for a waiver of reduction for this licence.

Accordingly, please find attached a revised work program and expenditure proposed for Year 3 of the subject licence.

Yours sincerely,

**ROSS MCCOLL**
