Namarrkon Project EL23700 - Outcrop Sample Alteration

Sample Number	Intensity	Colour	Alteration Type	Distribution
NM050001	moderate	pink	silicification	pervasive
NM050002	moderate	pink	silicification	pervasive
NM050003	weak	orange	silicification	pervasive
NM050013	weak	pink	silicification	pervasive
NM050030	moderate	purple	hematite	replacement
NM050031	moderate	maroon	hematite	replacement
NM050032	weak	grey	hematite	matrix
NM050033	weak	grey	hematite	matrix
NM060006	moderate	pink	silicification	pervasive
NM060007	weak	pink	illite	interstitial
NM080529	moderate	orange	hematite	fracture coating
NM080529	strong	orange	hematite	pervasive
NM080529	strong	purple	diagenetic hematite	patches
NM080530	weak	orange	hematite	pervasive
NM080531	moderate	orange	hematite	pervasive
NM080532	strong		silicification	pervasive
NM080532	strong	purple	diagenetic hematite	pervasive
NM080533	strong		silicification	pervasive
NM080533	strong	purple	diagenetic hematite	pervasive
