September 2011

Genesis report number: 32

DISTRIBUTION

- 1. Northern Territory Department of Minerals & Energy*
- 2. Genesis Exploration Limited*

SUMMARY

The Exploration Licence for the Fenn Gap Project was taken for the purpose of locating iron ore and manganese. Geological surveys however, showed no trace of these which resulted in no work being carried out on the tenement.

Based on these surveys and particularly the regional geophysical surveys, the area relinquished (Figure 1) was assessed as not having the characteristics necessary to focus any on-going exploration activity.
