Dear Sir or Madam,

I am writing to you regarding the surrender of Mineral Titles C1433 and C1551. We only ever got the titles to prospect for gold so we had nowhere to defect legally.

The titles were owned by Paul Hotowar and when he died from cancer his wife did not know what to do with them so instead of surrendering them she asked if I would take them over as I was a friend of Paul.

I am not a miner as such just a prospector and all we ever did was defect for gold on the block but as we live so far from Tennant we can't properly look after it and all the Tourists defect there. Not most of the signs were stolen and there is very little gold left for anyone to defect.

In the last year I have been up about four times and found no gold. I have spent about $4000 dollars.
so from our part it is a waste of money and time.

In hindsight knowing what I knew now I would not have taken on the titles at all.

We don't have computers and I am 66 years of age and my brother is older than me and he is also sick at the moment.

A rough summary of it all is we bought 3 metal detectors costing about $21,000 coral at least another $3,000 sheet about at least $38,000 dollars and found about 15 grams of gold.

The ground has not been changed only depleted on so it has no money holes etc on it.

My phone no is 89530626 or 89517777 if you need to know anything further.

Yours
Ray
Ray Martin.
