Dear Sir,

MLN624, GORDONS JOINT VENTURE NT

BHP Minerals Pty Ltd has access to explore on the above lease, via the Gordons Joint Venture, which also includes ELs 7730 and 8011.

MLN624 is situated in the McArthur Basin, NT which has potential for sediment-hosted base metal mineralisation. The lease covers some 16.18 hectares, and falls within EL8011, which BHP Minerals has been actively exploring in the last 12 months.

This letter is to advise that BHP Minerals has not conducted any field work on MLN624 in the past year, and is submitted in lieu of an annual report.

Should you require any further information, please contact this office.

Yours faithfully,

B K KNEEBONE
Principal Administrator

cc Mr R M Biddlecombe
