

DVNP\_0051\_1, we had quaternary sediments up to 1m then Devonian Lake Surprise Sandstone up to EOH which was 120m.

DVNP\_0050\_1: We are not quite sure but it may be:

0-27: Quaternary

27 – 70: Devonian Lake Surprise Sandstone

70 – 120: Hanson River Beds

120 – 180: Hooker Creek Formation

180 – 300: Montejinni Limestone
