

Document Title	<p>Well Completion Report</p> <p>Myrtle Basin #1 – EP176</p> <p>Northern Territory, Australia</p> <p>McArthur Basin</p>
Document Number	EP176-XPN-GEO-RPT-001-Rev0

Rev	Status	Prepared by	Checked by	Approved By	Date
0	Final	Luke Titus	Christine Eickhoff	Luke Titus	17/12/2013
		<i>Luke Titus</i>	<i>Christine Eickhoff</i>	<i>Luke Titus</i>	<i>17/12/2013</i>

Table of Contents

1.	Well Summary and General Data	4
2.	Drilling	5
2.1.	Drilling Summary	5
2.2.	Equipment Installed in and on the Well	6
2.3.	Wellbore Schematic	7
2.4.	Casing Runs	8
2.5.	Drilling Equipment	8
2.6.	Deviation Report	9
2.7.	Cementing Operation	9
2.8.	Bit Record	10
2.9.	Drilling Fluids	10
3.	Formation Evaluation	11
3.1.	Depth and Types of Cores and Cuttings, Well Evaluation Log and Fluid Samples	11
3.1.1.	Drill Cores	11
3.1.2.	Cuttings Descriptions	11
3.1.3.	Well evaluation logs	24
3.1.4.	Fluid Samples	24
3.2.	Hydrocarbon Indications	25
3.3.	Operation and Results including full raw pressure-time listings for all formation fluid sample tests and production tests carried out	25
4.	Geology	26
4.1	Pre-Spud Geological Well Prognosis	26
4.2	Along Hole and True Vertical Depth of Seismic Marker and Reservoir Horizons	26
4.3	Geological Interpretation of the Well Data	27
4.3.1	Log Adjusted Lithology Description	27
4.3.2	Reservoir Quality	30
4.3.3	Source Rock Quality	30
4.3.4	Hydrocarbon Indications	30
4.3.5	Trap integrity	30
4.4	Discussion of the relevance of the Well Data to the Evaluation of the Hydrocarbon Potential of the Area	30

Table of Figures

Figure 1: Drill Schematics.....	7
