**1** 'TSA Error' refers to the SRSS error value calculated by the mineral matching algorithm 'The Spectral Analyst v4.1'. Theoretically, the better the fit between the ideal mineral spectrum and the sampled mineral spectrum, the lower the SRSS value.

#### Abbreviations for Mineral Proportions

D = Dominant.

CD = Co-dominant. Minerals are in roughly equal proportions.

SD = Sub-dominant. Mineral proportion judged to be >25%.

A = Accessory. Mineral proportion judged to be >10%.

Tr = Trace. Mineral proportion judged to be <10%.
