

PR63/007A

## ~ LEGEND ~

- (21) Reference Number used in Report.
- (25) Calculated Susceptibility Contrast in  $10^{-3}$  c.g.s. units.
- (26) Calculated Dip (Inclined, Vertical) of Dike-Like Body.
- (27) Calculated Position and Width of Dike-Like Body.
- (28) Locations of Depth Determination.
- (29) Magnetic Trend and Location of Narrow Bodies (Proterozoic Bedding?)
- (30) Interpreted Contact of Wide (I = Intrusive) Magnetic Body.
- (31) F = II: Interpreted on the Basis of Discontinuities in Magnetic Trends.
- (32) Inflection Point Loci of Step Anomaly (Change in Regional Magnetic Intensity) probably associated with Faulting. (See Report for Detailed Discussion).
