NO SUITABLE ANOMALIES

~ LEGEND ~

- 3000 — Depth Determination in feet below sea level.
- +3000 — Average of neighbouring values of Depth Determination in feet below sea level.
- 2000 — Basement Contour
- Basement Contour (very approximate position).
- Boundary of Magnetic Zone.
- F4 — Interpreted Fault.
- Position of Minor Anomaly observed on original Magnetometer Charts.
- E — Magnetic Zone.
