

Table 2  
Nabarlek Project  
2005 Station Description

Sample Number	Utme	Utmn	EL Name	Location	Geomorphology	Outcrop Description	Lithology	Formation
NA050001	312319	8628909	EL 10176	Data Aquisition No 9	On side of moderate rocky slope above narrow creek bed.	Large blocky sandstone with prominent fracture sets.	Sandstone	Phe
NA050002	312307	8628896	EL 10176	Data Aquisition No 9	On side of moderate rocky slope above narrow creek bed.	Large blocky sandstone with prominent fracture set.	Sandstone	Phe
NA050003	312328	8628826	EL 10176	Data Aquisition No 9	On flat creek valley ontop of escarpment	Highly fractured elongate sandstone outcrop	Sandstone	Phe
NA050004	312330	8628829	EL 10176	Data Aquisition No 9	Flat sandy plain	No outcrop	Sandstone	Phe
NA050005	312308	8628820	EL 10176	Data Aquisition No 9	In creek bed.	Low lying sandstone outcrop with three fracture sets	Sandstone	Phe
NA050006	312239	8629043	EL 10176	Data Aquisition No 9	On moderate slope above narrow NS trending creek bed that joins with EW creek bed 30m to the north.	Low lying subcrop to scree of basalt.	Basalt dyke	Pdo
NA050007	312022	8628962	EL 10176	Data Aquisition No 9	On gentle slope.	Flat lying sandstone breccia.	Sandstone	Phe
NA050008	324686	8631741	EL 10176		Flat plateau of sandstone	Large rounded, botryoidal boulders of Phn sitting on flat sandstone pavement	Basalt	Phn
NA050009	324622	8630639	EL 10176		Ontop of rounded plateau	Rounded boulders with a boytroidal appearance of Phn.	Basalt	Phn
NA050010	307672	8642609	EL 10176	Cl hyperspec anom	Open flat plain	Flat lying sandstone pavements and sdst boulder float with boytroidal red lateritic concretions	Sandstone	Phe
NA050011	307686	8642618	EL 10176	Cl hyperspec anom	Open flat plain	Flat lying sandstone pavements and sdst boulder float with boytroidal red lateritic concretions	Sandstone	Phe

Nabarlek Project  
2005 Station Description

NA050012	307686	8642616	EL 10176	Cl hyperspec anom	On flat plain	Flat lying sandstone pavements and sdst boulder float with boytroidal red lateritic concretions	Sandstone	Phe
NA050013	312518	8633478	EL 10176	N84	On gentle slope in QML trench	No outcrop as trench infilled but abundant float from trench	Qz mi sch and qz bx	Pc
NA050014	314542	8631999	EL 10176	S27	On side of moderate slope	Low lying outcrop of siltstone	Siltstone	Phe
NA050015	314960	8632158	EL 10176	S27	In creek bed	Large blocks of pelite outcrop	Qz mi he pelite	Pc
NA050016	314947	8632170	EL 10176	S27	In creek bed	At base of cliff of continuous sandstone outcrop	Sandstone	Phe
NA050017	314942	8632173	EL 10176	S27	In creek bed.	At base of cliff of continuous sandstone outcrop	Sandstone breccia	Phe
NA050018	315063	8632177	EL 10176	S27	On top of rounded hill.	Elongate continuous sandstone outcrop	Sandstone	Phe
NA050019	326865	8634175	EL 10176	U65	At base of sheer cliff	Continuous cliff of sandstone	Sandstone	Phe
NA050020	323477	8643339	EL 10176	S26	On side of moderate slope of rounded hill	Low lying subcrop to outcrop with very coarse white mica.	Qz mi semipelite	Pc
NA050021	323609	8643308	EL 10176	S26	Gentle scree slope	Scree has not moved far as we are near the top of the hill. Subcrop of hematized sandstone	Sandstone	Phe
NA050022	323982	8643778	EL 10176	S26	Flat black soil plain	Black soil with no outcrop	Black soil	
NA050023	323418	8643250	EL 10176	S26	On top of WSW-ENE trending ridge	Rounded boulders of sandstone and bx sandstone	Sandstone	Phe
NA050024	323800	8633597	EL 10176	S25	On top of gentle hill below plateau	Low lying qz bx outcrop	Sandstone	Phe

Nabarlek Project  
2005 Station Description

NA050025	318441	8633175	EL 10176	S25	At base of escarpment	Low lying subcrop to scree of siltstone	Siltstone	Phe
NA050026	318455	8633088	EL 10176	East of S14	At unconformity below escarpment	Pod of rounded boulders of granite	Nabarlek Granite	Pg
NA050027	316510	8632082	EL 10176	S27	Above narrow ravine on ledge of sandstone	Continuous ridge of sandstone outcrop	Sandstone	Phe
NA050028	316172	8632431	EL 10176	S27	In flat valley in between two sandstone plateaus.	Low lying rounded sandstone outcrop with pebble beds	Sandstone	Phe
NA050029	315918	8632644	EL 10176	S27	In between two low plateaus on narrow sandy valley	Sandstone scree, sand and minor, rounded, low lying, ferruginous, sandstone outcrop	Sandstone	Phe
NA050030	315918	8632644	EL 10176	S27	In between two low plateaus on sandy valley floor	A termite mound on sandy valley floor	Termite Mound	Phe
NA050031	315763	8632587	EL 10176	S27	Above valley floor on elongate ridge of sandstone	Elongate ridge of sandstone outcrop with minor pebbles	Sandstone	Phe
NA050400	317910	8642334	EL 10176		open woodland with long grass	weathered rock in erosional gully	Weathered semipelite	Pc
NA050401	317935	8642328	EL 10176		open woodland and long grass	weathered rock in erosional gully	Weathered psammo-pelite	Pc
NA050402	317944	8642286	EL 10176		open woodland and long grass	weathered rock in erosional gully	Hematite Qtz breccia	Pc
NA050403	315615	8631308	EL 10176	S27 South	flat sds pavement with narrow linear gully along minor fault	flat bedded cg to locally pebbly - sparse pebbles sandstone,	Pebbly coarse grained sandstone	Phe
NA050404	315628	8631317	EL 10176	S27 South	flat-bedded sdst pavement some escarpment development to north	cg sdst with sparse scattered pebbles to 5cm	cg to locally pebbly sdst, clay	Phe
NA050405	315230	8632004	EL10176		outcrop immediately east of dry creek bed	coarse to pebbly ferruginous/hematitic ss	Pebbly sandstone	Phe
NA050406	315294	8632321	EL10176		near a sandstone bench above a gully	orange brown termite mound	termite mound	Phe
