EL 10120

YEAR 5

GROVE HILL AREA

15 – 08 – 06

to

14 – 08 – 07

BY ROBERT M BIDDLECOMBE

IMAGED
LOCATION: EL10120

Access via Fountain Head road to Grove Hill. Formed gravel road from Fountain Head road to Stuart Highway traverses the property.

GEOLOGY

The EL is dominated by a north dipping anticline in Koolpin and Mt Bonnie formations. This is outcropping and of hilly nature. To the east and west of this zone are flat alluvial plains.
WORK COMPLETED

Four bulk samples were taken from alluvial material of approximately 100 tonnes per sample. Samples were taken from the bottom 300mm and graded .30 gpt gold.

FUTURE PROGRAM YEAR 6

All alluvial testing is now completed. Future work will concentrate on primary mineralisation. Please find program prepared by the new joint venturer Armada Exploration Pty Ltd.

EXPENDITURE YEAR 6

$6,000.00
