Distribution:

Dept Resource Development, Primary Industry, Fisheries and Resources, Darwin
Kettle Rose Pty Ltd, Melbourne

SUMMARY

Exploration Licence 26529 was granted on the 1st of August, 2008, to search for diamond and base metals. No field based work was conducted on the tenement during the first year as work programmes were suspended pending the outcome of a tenement rationalisation process that included a desk top review of the Kettle Rose tenements. Future work is expected to involve an airborne magnetic survey to infill 400m spaced NT Government magnetic data for a final resolution of 200m line spacing. The survey is expected to cover approximately three thousand line kilometres.
