ANNUAL REPORT
NORTHERN CEMENT LIMITED
Mataranka Mineral Claims

Report by: Mark Joraslafsky Period ending 19/11/2008

MCN 675

SUMMARY
During the 2008 reporting year there were no exploration or quarrying activities within MCN 675. This tenement is one of 2 adjoining Mineral claims located on the Mataranka Homestead road 3 kilometres from the town of Mataranka. These tenements are held as future limestone reserves in case of major road flooding which sometimes occurs between the Lime plant and the other operational tenements to the east.
