**MCS 245 - ANNUAL REPORT Year Ending 2008**

During the reporting period, the tenement located in the Harts Range region of the Northern Territory, achieved transfer to Inminerals Pty Ltd however no exploration activities were carried out.

Whenever possible, on regional visits, we endeavour to ensure the integrity of the Mineral Claim pegs and clear vegetation where possible.

Since the granting of this mineral claim, there has been no other field activity (exploration) in this particular tenement.

We will inform the Department prior to any anticipated field activity in this tenement.

Yours faithfully
