**MLS 155 to 162 inclusive ANNUAL REPORT 2008 - 2009**

During the reporting period in relation to these tenements, located in the Harts Range region of the Northern Territory, no exploration activities were carried out.

Inminerals Pty Ltd awaits the granting of its major mineral tenements.

Wherever possible and within other activities in the region we endeavour to encompass site visits and arranged times to inspect the leases.

We endeavour to ensure the integrity of the lease pegs and cleared vegetation where possible.

Since the granting of the leases, there has been no other field activity (exploration). We will inform the Department of Primary Industry, Fisheries and Mines prior to any anticipated field activity on these tenements.
