To whom it may concern,

Annual Reports for 'Nil Activity' for MLN276 (Mary River)

Please be advised that Boral Resources (SA) Limited have a mineral lease 'MLN276' situated on the Mary River that was granted on the 17/10/1975 and will expire on the 31/12/2016.

Boral has not extracted sand from this location for the last couple years as we do not have a current operational need for sand at or near this location. Also it was brought to our attention that this mineral lease may be situated in a crocodile hatching area.

Future extraction of sand at this location will depend upon operational requirements (timeframe unknown) and also further investigations into the location of the crocodile hatching area in relation to our mineral lease.

Accordingly we trust this letter meets the requirements of Annual Report 'Nil Activity' for MLN276.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Annette Hodgson", written over a blue horizontal line.

Annette Hodgson
