ANNUAL REPORT

M.C.S. 157 & 209

From 01/01/2011 to 31/12/2011

Title Holders

M.C.S. 157 Gary Bohning & Elaine Bohning.

M.C.S. 209 Gary Bohning.

MINERAL CLAIMS 157 & 209, ARE BOTH UNDER CARE AND MAINTENANCE.

All patrols, Monitoring, Conditions and Requirements have been adhered to.

There has been NO TRENCHING, COSTEENING, DRILLING, CLEARING, ALLUVIAL WORK, OR ANY OTHER ACTIVITIES CARRIED OUT DURING THIS PERIOD OF TIME.

At this point in time it is not our intention to surrender or hand back these leases on the contrary our plans for the future are:

OUR OPTIONS.

1. Continue to work these claims.

2. Incorporate and encourage tourists and locals to be able to Pan, Dolly and detect for Gold.

3. Use leases in an I.P.O. Currently negotiations are underway. (In the early stage at the moment).
A huge wild fire burnt the area on the 12/02/2012 and burnt through the Arltunga district devastating much of the country. With our selves, other Park Personnel, neighbouring Pastoral Property Owners, Bush Fire Council and Bush Fire Volunteers, we managed to get it under control after 3 days. Unfortunately Parts of the Garden Station, Ambalindum Station, Loves Creek Station and the Arltunga Historical Reserve were burnt out. The Cavenagh Range where Mineral Claims 157 and 209 are located was also burnt. No Plant or Equipment was damaged or lost. No other incidences to report.

Unfortunately at this stage we are unable to send this report electronically.

If you require any further information I can be contacted at the Arltunga Historical Reserve on the phone number 89569770 or fax number 89569819.

Yours Sincerely,

Gary Bohning,
21st March. 2012
