

Geology Legend

EARLY PROTEROZOIC GRANITOIDS

Symbols in alphabetical order

PREDOMINANTLY I-TYPE

Egca	Allamber Springs Granite	<i>Pink, medium, predominantly equigranular biotite-hornblende granite</i>
Egcb	Burnside Granite	<i>Light grey, fine to medium, porphyritic to equigranular, biotite granite; moderately foliated</i>
Egcc	McCarthy's Granite	<i>Light pink to light grey, medium to coarse, porphyritic, biotite $\pm$ hornblende granite</i>
Egcd	Driffield Granite	<i>Pink, medium to coarse, porphyritic to equigranular biotite granite</i>
Egcf	Fingerpost Granodiorite	<i>Light pink, medium to coarse, biotite-hornblende granodiorite; porphyritic to equigranular</i>
Egcg	Margaret Granite	<i>Light grey to pink, medium to coarse porphyritic to equigranular, biotite-hornblende granite</i>
Egch	Shoobridge Granite	<i>Dark grey to pink, mainly porphyritic, biotite-hornblende granite with mafic margins</i>
Egci	Minglo Granite	<i>Pink, medium to coarse, predominantly porphyritic, biotite-hornblende granite</i>
Egck	McKinlay Granite	<i>Light grey, medium to coarse, biotite-hornblende granite; predominantly equigranular</i>
Egcm	McMinns Bluff Granite	<i>Pink, coarse, predominantly porphyritic, biotite-hornblende granite</i>
Egcn	Fenton Granite	<i>Light grey to pink, medium to coarse, porphyritic biotite-hornblende granite, sheared at places; partly foliated</i>
Egco	Douglas Granite	<i>Light grey, fine to medium, porphyritic, felsic biotite granite</i>
Egcp	Prices Spring Granite	<i>Light grey, fine to medium, porphyritic to equigranular, biotite-hornblende granite</i>
Egcr	Frances Creek Granite	<i>Light grey, fine to medium, porphyritic to equigranular biotite granite</i>
Egcs	Saunders Granite	<i>Pink to light grey, fine to medium, predominantly equigranular mafic to felsic hornblende-biotite granite</i>
Egct	Tabletop Granite	<i>Pink to rare green, fine to coarse, porphyritic to equigranular, felsic, biotite-hornblende granite</i>
Egcu	Umbrawarra Granite	<i>Light grey to pink, medium, porphyritic to equigranular, biotite-muscovite granite</i>
Egcx	Bonrook Granite	<i>Pink, fine to medium, porphyritic to equigranular, biotite granite</i>
Egcz	Bludells Monzonite	<i>Light greyish-green, fine to medium, quartz monzonite, monzodiorite, olivine dolerite and quartz syenite</i>

PREDOMINANTLY S-TYPE

Egif	Fish Billabong Granite	<i>Light grey to pink, fine to coarse, mostly equigranular, partly foliated granite</i>
Eglj	Jammine Granite	<i>Light grey, medium, porphyritic but predominantly equigranular, biotite-muscovite granite, and greisen</i>
Egll	Mount Litchfield Granite	<i>Light grey to pink, biotite-muscovite granite, granodiorite; non-foliated to moderately foliated granite with tourmaline-bearing pegmatite and gneiss</i>
Eglm	Murra-Kamangee Granodiorite	<i>Light grey, medium, variably foliated biotite granite and granodiorite</i>
Eglr	Reynolds River Granite	<i>Light grey to pink, medium to coarse biotite granite</i>
Eglt	Two Sisters Granite	<i>Light grey, granite, granodiorite; characterized by tourmaline-muscovite pegmatitic veins, garnet in places</i>
