

ANNUAL REPORT - NIL ACTIVITY REPORT

DATE OF REPORT – 23rd March 2016

DATE REPORTED SUBMITTED – 23rd March 2016

Tenure	MLN 766
Title	MLN 766 – Annual Report 1.1.2015 – 31.12.2015
Period	1.1.2015 – 31.12.2015
Project Name	Bridge Creek Project
Title Holder	Dale N Page
Title Operator	Dale N Page
Personal Author	Dale N Page
Report Type	Annual
Location Map	See attached
Title Map	See attached
Geological Province	Pine Creek Orogen
Target Commodity	Stone and Gold (combined product)
Purpose for which Titles are held	Essentially to mine the tailings from the former alluvial operator Mentana Minerals for the purpose of extracting stone/gold.
Title History	<p>This general area surrounding this title (ie. MLN 1066) was worked in the mid 1980's by Metana Minerals. An alluvial operation was running for approximately 4 years during which time it is estimated 800,000 to 1,000,000 metres of alluvial dirt was mined from the pre-existing workings (1880's) using heavy minerals separation plant. During this period of mining no hazardous chemicals were in use and as a result there is no toxic waste present. No work has been undertaken since the above period. These titles were held by Northern Gold in the 1980's then a succession of other title holders, most recently the title holder being Crocodile Gold. Dale Page purchased these titles from Crocodile Gold in December 2014.</p> <p>There are no known historic disturbances or works evident on title MLN766.</p>
Reason for Nil Activity	Dale N Page is currently working at the Redhill Alluvial Project processing a stockpile of material that was extracted prior to end of year 2015. That work will continue for the next 1 – 2 months.
Commencement of Activity	Is expected to commence May 2016 at the earliest however all works as listed in the current Mine Management Plan will be contained on title MLN1066. No activity as such will take place on MLN766 in the coming 12 months.
Nature of that Activity	Nil activity in the coming 12 months.
