Purpose for which Titles are held: Exploration

Title history: EL32064 was granted to Anthony Wright on the 05/12/2019 for a period of 6 years.

Location, physiography and access: Access via the Buntine or Buchanan Hwys near Top Springs

Exploration/Mining History: Most of the other mining companies that took up leases in this area were looking for diamonds on contract to De Beers. Some microdiamonds were found but no diamond pipes so the ground was relinquished. Copper minerals were found by accident years ago 5 km from the lease border when the cattle station drilled a water bore.

Work Completed: The blocks dropped have been walked and samples taken.

Conclusions/Recommendations: The blocks dropped were selected due to the lack of exploration targets.
