

Location:	McArthur Basin	Total Depth:	156.6	Bit Size:	3.875 in
Licence:		KB/RT:	140	Mud Type:	Al R
Latitude:	14 09' 37.20" S	Vertical Scale:	200	DFD:	PPG
Longitude:	133 44' 15.60" E	Vertical Units:	METRES	BHT:	C

Remarks :  
Only GR and Verticality logged.  
Verticality log was run inside NQ drill pipe - as such the azimuth reading is unreliable (it is calculated via magnetic field which may be affected by the metal NQ string. GR attenuated too (inside NQ string).  
No other logs were run due to hole conditions.
