

## Weathering

Code	Description
EW	Complete pervasive oxidation (no reduced iron present). Destruction of primary textures
HW	Complete pervasive oxidation (no reduced iron present). Some remnant primary textures
MW	Partial oxidation of moderate-high pervasiveness. Primary textures evident
SW	Partial oxidation of low pervasiveness. Primary textures throughout
FR	Complete absence of oxidation or supergene related processes
FRJ	Fresh rock mass with evidence of oxidation on defect surfaces only

## Colour

Three digit code comprising **prefix/Shade, hue and colour**

### Prefix/Shade

Code	Description
L	Light
M	Medium
D	Dark
T	Mottled
B	Banded

### Hue

Code	Description
K	Blackish
E	Blueish
B	Brownish
C	Creamish
G	Greenish
Y	Greyish
O	Orangeish
P	Pinkish
U	Purpleish
R	Redish
W	Whiteish
L	Yellowish

### Colour

Code	Description
K	Black
E	Blue
B	Brown
C	Cream
G	Green
Y	Grey
O	Orange
P	Pink
U	Purple
R	Red
W	White
L	Yellow

Examples:

<i>Mottled bluish green</i>	TEG
<i>Light brown</i>	LBB
<i>Medium bluish grey</i>	MEY
<i>Banded red and black</i>	BRK

ultramafic tuff	Turn
vitric lithic tuff	Tvl
vitric crystal tuff	Tvx
vitric tuff	Tvv

Sedimentary Description	Code
arenite	Sar
argillite	Sag
arkose	Sak
boundstone (carbonate)	Sbo
calcarenite	Sca
calcitutite	Scl
calcirudite	Scr
carbonaceous shale	Ssc
chert	Sct
claystone	Scy
coal	Sco

Sedimentary Description	Code
phosphorite	Sph
quartzite	Sqt
rudite	Srd
rudstone (carbonate)	Srs
sandstone	Ssn
sediment general	Sdu
sedimentary breccia	Sbx
shale	Ssh
siltstone	Ssl
subarkose	Ssa
subgreywacke	Ssq

conglomerate	Scg
diamictite	Sdm
diatomite	Sdi
dolomite	Sdo
exhalite	Sex
grainstone (carbonate)	Sgs
greywacke	Sgw
grit	Sgr
iron formation carbonate facies	Sic
iron formation general	Sif
iron formation oxide facies	Sio
iron formation silicate facies	Sil
iron formation sulphide facies	Sis
jaspilite, jasper	Sjs
limestone	Slm
magnesite (sedimentary)	Smg
marl	Sml
micrite	Smc
mudstone	Smd
orthoquartzite	Sqo
packstone (carbonate)	Spa
pelite	Spe

tillite	Sti
turbidite	Stb
wacke	Swk

Regolith/Overburden Description	Code
A-horizon soil	Osa
Alluvium	Oal
Bauxite	Obt
B-horizon soil	Osb
calcrete	Occ
caprock	Ocp
C-horizon soil	Osc
clay	Ocy
colluvium	Ocl
duricrust general	Odu
eluvium	Oel
ferricrete	Ofc
Gossan	Ogo
Gravel	Ogv
gypcrete	Ogy

Regolith/Overburden Description	Code
silt, unconsolidated	Osl
soil general	Osu
travertine	Otr

Hardpan	Ohp
Humus	Ohm
ironstone	Ois
Lag	Olg
laterite	Olt
Lignite	Oln
Loam	Olo
magnesite rock (weathering related)	Omg
