

# Technical Reporting

Tenure: EL31545

Title: Vic River 1 Annual and Final Report 2024

Report Period: 26/04/2023 – 26/04/2024

Project Name: Vic River 1

Title Holder: Anthony Wright

Title Operator: Anthony Wright

Personal Author: Anthony Wright

Report Type: Annual and Final Technical Report

250K Mapsheet/s: VRD SE5204

100K Mapsheet/s: Killarney 5265

Geological Province: Kalkarindji

Target Commodity: Copper / Lead

Purpose for which Titles are held: Exploration and Prospecting

Location, physiography and access: Access via the Buntine or Buchanan Hwys near Top Springs – see Figure1 below

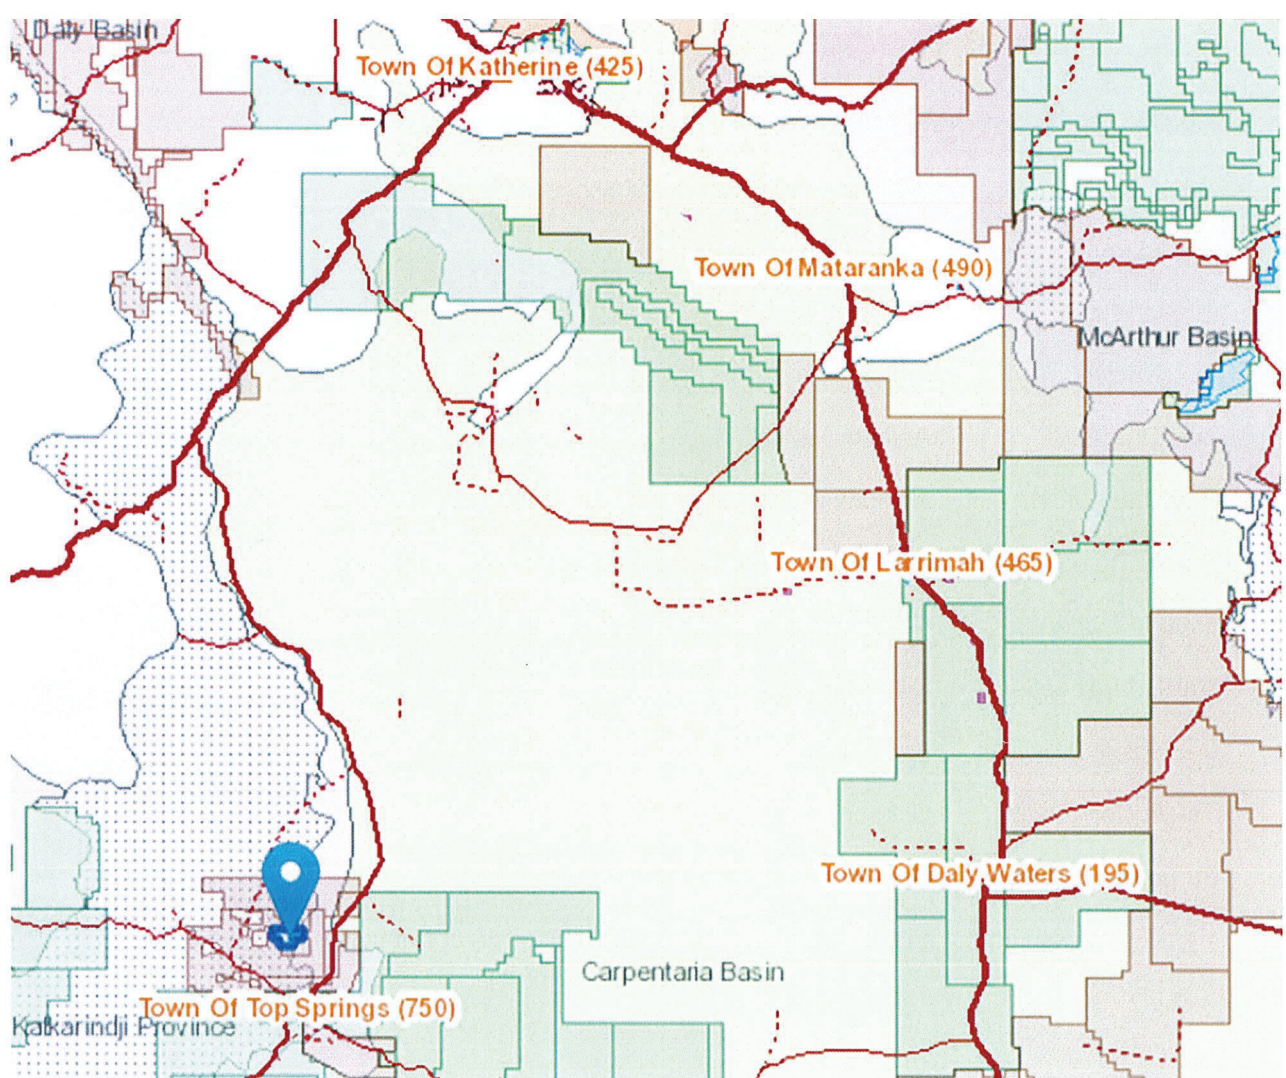

Figure 1 – location of EL31545 shown with the blue pin

Work completed : This year I continued to explore mainly on foot to take stream sediment and rock chip samples (not submitted for assay). I didn't find anything of interest. Exploration on a working cattle station is very hard as no burning is carried out which makes it easier to get a clear look at the ground. No minerals of a mineable value were found and I didn't renew the title.

Conclusions/Recommendations: The title was allowed to expire after the six year grant period.
