Purpose for which Titles are held	This title is held in conjunction with MLN1060 and MLN766. Overall the 3 titles are held essentially to mine the tailings from the former alluvial operator Mentana Minerals for the purpose of extracting stone/gold.
Title History	<p>This title (as part of a number of titles held by Mentana Minerals) was worked in the mid 1980's by Mentana Minerals. An alluvial operation was running for approximately 4 years during which time it is estimated 800,000 to 1,000,000 metres of alluvial dirt was mined from the pre-existing workings (1880's) using heavy minerals separation plant. During this period of mining no hazardous chemicals were in use and as a result there is no toxic waste present. No work has been undertaken since the above period. These titles were held by Northern Gold in the 1980's then a succession of other title holders, most recently the title holder being Crocodile Gold. Dale Page purchased these titles from Crocodile Gold in December 2014.</p> <p>The historic disturbed areas on this title consist of:</p> <ul style="list-style-type: none">• 2 Water Dams that are possibly the original extraction pits from historic mining• Tailing Stockpile• Main road running through the title that provides access to the north
