

Technical Reporting

Tenure: EL31545

Group Report ID: NA

Title: Vic River 1 Annual Report

Report Period: 26/04/2021 – 25/04/2022

Project Name: Vic River 1

Title Holder: Anthony Wright

Title Operator: Anthony Wright

Personal Author: Anthony Wright

Report Type: Annual

Date of compilation: 03 May 2022

250K Mapsheet/s: VRD SE5204

100K Mapsheet/s: Killarney 5265

Geological Province: Kalkarindji Province

Stratigraphic Name: N/A

Target Commodity: Copper / Lead

Other Commodities:

Purpose for which Titles are held: Exploration

Title history:

Location, physiography and access: Access is via either the Buntine or Buchanan Hwys.

Work Completed:

Some of the year was affected by Covid-19 as roads were closed and no travel allowed. When access to the lease was available, I spent 2 weeks on the lease looking for more copper minerals on the edge of the Wiso Basin. I took a few rocks samples which might be Pb (lead). I'm in talks with an investor to possibly drill 3 RC holes.

Conclusions/Recommendations: Continue exploration to see if the lease has potential to be economic/mineable for Cu.
